CENTER FOR ADVANCED LEARNING

Gresham

The Center for Advanced Learning is a charter school started and operated by the Centennial, Corbett, Gresham-Barlow and Reynolds school districts. This regional facility provides high school juniors and seniors with advanced, specially-designed learning environments, using state-of-the-art technology. It is a place where a student can start a career in medical/health sciences, information technology, engineering or advanced manufacturing. The 59,000-square-foot building will house manufacturing arts, welding, forge and fabrication equipment, computer labs, nursing and dentistry rooms, wet labs and a high-tech trade school backed by the local business community.
